Office of Legislative Counsel

Sunday - 2 November 1958

25X1
Commander Bartlett in the Watch Office at Navy telephoned concerning a query from [] Apparently Representative Mahon wished to visit some Navy installations and Bartlett indicated that the Agency had some tie-in. Bartlett was careful to indicate he was not asking Agency approval but was just interested in what Mahon and Crosby were seeking. Bartlett also raised the question of security clearances for Mahon and Crosby. He was informed that clearances as such are not issued for Congressmen and in the case of Sam Crosby he did have a TOP SECRET DOD clearance. It was further suggested that Bartlett be in touch with his own liaison legislative office for guidance. Bartlett was informed of Mahon's position within the Appropriations Committee and CIA Subcommittee and was generally advised of our cooperative assistance to Mahon on the present trip.
